Your Ideal City

/40 Marks

Task:

Your task as an architect is to create a diverse and ideal settlement.

Criteria:

You will be given a blank sheet of paper and from there you will need to create a realistic representation of a diverse settlement which includes the site and situation of your city. You may also do this, or some of it, on the computer.

You must also include the different types of land uses and the following aspects of a diversified settlement.

- ☐ site location of settlement
- ☐ situation of settlement
- ☐ settlement patterns (E.G. Clustered, minimum of 2)
- ☐ a variety of land uses (residential, institutional, open space, commercial, transportation and industrial land use)
- ☐ major transportation route(s) (Roads, airports, railways)
- ☐ water supply
- ☐ legend (that includes all labeled parts! You should include colors to indicate land use)
- ☐ watch for land use conflicts! (e.g. a hospital would not be good near a factory)

You will also be making an oral presentation to the class which will explain your ideal city. You should in your presentation outline:

- 1) Percentages of land allocated for each type of use. E.g. Industrial: 20%
- 2) An explanation for why you have allocated that percentage to each land use. E.g. Why have you added 30% as parks and open space?
- 3) How you think your city will function/what types of people will live there?
- 4) Why you think this is an ideal city.

You will be given some class time to work on this project but you will need to work on it at home as well.
